WORK & EXPERIENCE

Front End Web Developer   *Sep 2015 - Present*
Work at budding startup OraViz in San Francisco weekly as front end web developer with tinkerings in the backend. Responsibilities include debugging, designing, and inputting opinions on company's direction.

Lab Assistant   *Jan 2015 - Aug 2015*
Lab assisted for two semesters for CS10, the introduction to computer science class at UC Berkeley for those with no experience. During lab, answered questions on lab, tutored on CS concepts, helped students with homework and projects, and proofread labs.

Front End Designer   *Oct 2014*
Designed and created the second version of the landing page for social media app Cuddlr, now known as Spoonr.

EXTRACURRICULARS

CS Scholar   *Jan 2014 - Present*
A member of UC Berkeley's CS Scholars Program, a community that strives to perform well academically while also acknowledging the stereotypes and lack of diversity in CS and how to amend these.

PROJECTS

Personal Website   *Sep 2015 - Present*
Created from scratch using HTML, CSS, JavaScript, jQuery, and Bootstrap.

Fun:Work   *Oct 2015 - Present*
Ruby on Rails app born during Cal Hacks and still in progress. Users can sign up for an account in which they will input hours spent in their day having fun or working and their contentment level, which will be translated over time into their personal fun-to-work ratio for optimum contentment.

A Sea of Quotes   *Oct 2011 - Present*
Created and administer the quotes from literature Tumblr blog, A Sea of Quotes, which currenty has over 247, 000 followers.
